

# FREQUENTLY ASKED QUESTIONS

## What equipment do I need? Can students play on a Chromebook?

Many schools have students participate in scholastic esports events from their own home **using their own equipment**. Most of the scholastic esports competitions offered by OSEA use cross-platform titles, which means they can be played by students on any gaming console.

That said, **OSEA recommends creating a small, dedicated space (such a library or classroom) where students can compete at school together**. Our games can be played on Nintendo Switch, PlayStation 4/5, Xbox One/Series, and PC, but *not* on Chromebooks.

There are many options available to schools and we'd love to help guide you in finding the best solution that will meet your needs!

## How much does it cost?

School memberships cost \$100/year, which grants access to all our events and tournaments.

Teacher memberships are **FREE!**

Most of the games we use are also free-to-play!

## What if I don't know anything about gaming or esports?

You don't need any prior knowledge of esports, and you don't have to be a gamer yourself in order to coach! All you need is a positive attitude, a willingness to learn, and a commitment to students!

We're here to help every step of the way!

## What is expected of me as a coach?

Coaches are expected to be present with their teams *at all times* during scheduled games, either in person or virtually. Coaches are also expected to offer and support a regular practice time for students.

All teams are required to adhere to the OSEA Community Guidelines.

## When are games played?

Season games are played on Wednesdays from 6:00pm to 7:30pm. Championship and tournament games are played on Saturdays starting at 9am.

## Are there prizes?

OSEA does not offer monetary prizes for events, contests, or tournaments.

We *do* celebrate successes with championship trophies, medals, certificates, and other forms of recognition to winning teams.
